17 INTERREL ATIONSHIP OF BUILDING AND SUPPOINTINGS
17. INTERRELATIONSHIP OF BUILDING AND SURROUNDINGS: (Indicate if building or structure in in an historic district)
(Indicate if building or structure is in an historic district) This group of houses is at the southern end of a residential area which
runs south from Main Street to the Great South Bay. There are numerous
houses of architectural significance in the area, ranging from large
Victorian structures to this group of baymen's cottages.
18. OTHER NOTABLE FEATURES OF BUILDING AND SITE (including interior features if known):
The houses vary, but all retain some original elements, i.e., turned
porch posts, shingles, windows, or brackets. Old postcards show some
of these cottages when Ocean Avenue had clam shell roads and wooden
sidewalks. All the cottages except #117 have gable roofs; #117 has a
gambrel roof.
gamprer roor.
